

\THE HABITAT PENANG HILL

The Habitat Penang Hill is the newest eco-tourism attraction in Penang with dramatic natural beauty, and a commitment to nature conservation. The Habitat Penang Hill is the place to visit for your educational Malaysian rainforest experience. Our trail is set on the fringes of only one of two remaining virgin jungle reserves in Penang that is said to be 130 million years old. Discover the beauty of and power of nature as you make your way along the new nature trail.
