FIG TREE HILL

Ensnore yourself in the guilty indulgence of nature. Bask in the lush green valley of rich tropical surroundings, only to be interrupted by a placid estuary. This luxury of nature in Sungai Ara is accessible through a 30 minutes drive from Georgetown, Penang.

With 6 lavishly different villas, our guests are sure to have a surrealistic experience rekindling with nature and all its beauty. Enhancing the experience, well equipped facilities and attentive staffs will be at the dispense of our guests.

At a peace of mind, our resort invested a tremendous amount of efforts to ensure we preserve the integrity of the valley. We've incorporated as much recycled material as we can for the construction of the villas and taken appropriate steps to ensure our facilities are as green as possible. These initiatives can be seen throughout our resort with the staircases standing out from old train tracks.
