TECH DOME PENANG

Penang's very first Science Discovery Centre housed in a geodesic dome right in the heart of the George Town Heritage City. With more than 40,000 sq ft of floor space showcasing 6 main galleries (Information Technology, Robotics, Optics, Forces & Motion, Life Tech and Electro-magnetism) and more than 120 international-standard interactive exhibits, visitors are assured of an immersive and experiential presentation on the marvels of science and technology. Suitable for all age groups. Tech Dome Penang offers an excellent venue (fully air-conditioned) with a range of the exhibits suitable for team building and family day activities. Educational programmes on science and technology for school children are conducted periodically. Also offers rental space for small exhibitions/events.
